### High Output UV-C

### Additional Features:

Built-in timer with remote control and base operation.  
Battery included for the remote controller unit.

Auto-OFF timer can be set for 15 min., 30 min., or 60min.

There is a 15 second ON delay allowing ample time to exit the area before the UV-C light waves ignite and sterilization begins.

Replaceable 36-watt High Power UV-C lamp @ 8,000 hours.

Unit can be table or floor mounted as well as hung to reach the desired / optimal UV-C light wave exposure for the area.

4' long UL listed power cord with 3-prong grounded plug.

Each unit comes in a single pack box. 8 units per master carton.

These UV-C sterilizer units are fully assembled and ready to use. Unbox, set in desired area and position, plug in, and set the timer.

100% safe & effective when used as directed.

### Norman Lamps, Inc.

Since 1985, Norman Lamps has maintained one of the largest UV-C lamp inventories in the United States. Norman UV-C lamps and products are distributed nationwide and produced to the highest quality levels of any UV-C lamps on the market today. We cover a wide range of replacement UV-C lamps in stock and ready to ship. Our new UV-C fixture # UV36H is ideal for use in a multitude of applications that require safe and highly effective germ-killing properties that will provide sterile environments wherever one is needed.
